

RESERVOIR ROTERRA DRIVE

- **Can be installed in road surfaces (load class D400)**
- Easy cleaning and maintenance of the reservoirs interior
- **Long product life and recyclability**
- Quick installation and easy on-site handling
- **Suitable for various applications**
- Adaptable to ground elevations
- **Option of additional equipment according to the project (suction hoses, filters, etc.)**
- Slovenian product

Product description

RoDrive tanks are suitable for a variety of uses and applications. They can be used as fire water tanks, water retention tanks, water storage tanks and more.

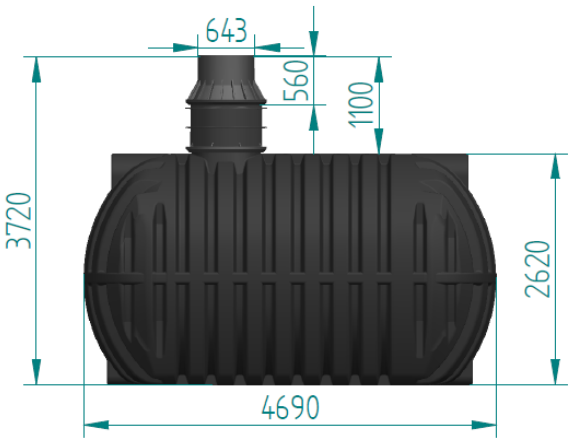

They are characterised by excellent statics, allowing the tank to be installed in road surfaces up to load class D 400 or axle loads up to 40 t/m2.
